## Banner has a New Name for the New Year

Banner Business Supplies, based in Norwich, has a new name for the New Year and is now trading as 'Banner Business Services'.

As well as supplying furniture, technology and office products, the company offers a range of added value business services, with a portfolio encompassing specialist sourcing, environmental audits, furniture and equipment disposal, recycling and more.

The launch of 'Banner Business Services' is the final stage of a corporate re-branding project for Banner, following the successful launch of its new logo in June 2008.

Geoff Streetley, Managing Director of Banner, says: "Our new identity reflects our position in the marketplace as a supplier of innovative business services to a growing client base."

New offerings for 2009 include an on-site shredding service for the secure disposal of confidential waste, providing security and peace of mind. In addition, the acquisition of AccessPlus by the office2office group, Banner's parent company, means Banner can now offer an extensive range of print management and business process outsourcing services to clients.

Brochures detailing the full range of services are available at [www.banner-online.biz](http://www.banner-online.biz)

### Notes to Editors:

Banner Business Services Limited is the UK and Ireland's leading independent supplier of business products and services to private and public sector organisations, from financial institutions and utility companies to government departments and local councils.
